Selection of the best videos

Selection of the best video will be done by the jury and the audience, in the following proportions:

- 80 % of total points will be from the jury
- 20 % of total points will be from the audience

All the videos will be available at the YouTube channel of the Microplastics project, in the [playlist Video competition](#).

Criteria for evaluating videos

MicPla⁹ROB

Funded by
the European Union

80 % of the evaluation comes from the expert committee:

- Originality of the video (20 %)
- Content relevance to the Microplastics project (20 %)
- Technical implementation (20 %)
- The message of the video (20 %)

The remaining 20 % comes with an audience rating — likes on YouTube

Likes on YouTube

MicPla⁹ROB

Funded by
the European Union

- The project has its own YouTube channel
- We have a special playlist called "Video competition"
- Until 1.2.2023, all videos will be uploaded to this channel
- 1.2.-28.2.2023: time to get visitor likes

Language of the video

MicPla⁹ROB

Funded by
the European Union

- It can be in English, Italian or Slovene language
- To attract visitors on YouTube and get their likes – try to have at least a bit of the video in English (subtitles, supertitles, speech,...)
- Viewers will be from both countries (Italy and Slovenia)
